## PROFILE

I completed Master of Information technology and system in University of Canberra, I can speak mutiplt lanaguage. In the last semester, I participate an IT intern in an IT company. To know more about me please click on my personal site <https://www.yiweifeng.com/>

## LANGUAGE

- ENGLISH (PTE SPEAKING 90)
- MANDARIN
- CANTONESE
- JAPANESE

## EXPERIENCE

### Dec 2024/RAG Project for a book

A Retrieval-Augmented Generation (RAG) system using **Ollama** for AI-driven knowledge retrieval. It processes *A Song of Ice and Fire* content with embeddings stored in Milvus and supports interactive queries. Includes **Docker deployment** and **web scraping** for dynamic data extraction.

### 4 May 2024/Personal project(auask)

I have extensive experience in frontend development and backend functionalities, leading the development of <https://auask.ai/>. My responsibilities include crafting the user interface and handling crucial backend tasks such as email activation, Google login, password reset, and data fetching.

### July 2023/ Wentworth Institute

As a lecturer in IT at Win Education, I am responsible for delivering engaging lectures, facilitating discussions, and conducting practical sessions to enhance students' understanding of IT concepts and applications.
